PROFESSIONAL SUMMARY

Motivated Computer Science student and Full-Stack Developer with a focus on the MERN stack. Experienced in designing responsive front-end interfaces, building robust back-end systems, and managing relational and non-relational databases. A dedicated problem-solver with a strong foundation in software documentation and collaborative teamwork.

TECHNICAL SKILLS

- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js
 - **Back-End:** Node.js, Python, Java, C++, PHP
 - **Databases:** MySQL, MongoDB, Oracle, SQL Server
 - **Tools & Version Control:** Git, GitHub, VS Code, Canva
-

PROJECTS

Employee Payroll Management System | *Java*

- Developed a desktop-based application to automate payroll processing for organizations.
- Implemented features for employee data management, salary calculation logic, and automated payslip generation.
- Focused on improving administrative efficiency and reducing manual entry errors.

Cafe Management System | *HTML, CSS, JavaScript, MySQL*

- Built a comprehensive web application to streamline cafe operations and order tracking.

- Designed an intuitive user interface for staff to manage customer orders in real-time.
- Integrated a MySQL database to handle menu inventory and sales records securely.

Personal Portfolio Website HTML CSS JS *React*

- Designed and deployed a responsive, modern portfolio to showcase technical projects and skills.
 - Implemented "Dark Mode" functionality and smooth-scroll navigation for enhanced user experience.
-

EDUCATION

Bachelor of Science in Computer Science Debre Birhan, Ethiopia

CERTIFICATIONS (Udacity)

- **Artificial Intelligence Fundamentals:** Gained core knowledge of AI concepts, machine learning logic, and neural network basics.
- **Data Science Fundamentals:** Skilled in data analysis, interpretation, and using data to drive decision-making.
- **Android Kotlin Development:** Proficient in building native mobile applications using modern Kotlin practices and Android Studio.
- **Programming Fundamentals:** Mastered the logic, syntax, and problem-solving techniques essential for modern software engineering.
